**Dear Birthmother,**

**We are excited that you are reading our letter. We are strong believers in adoption and we feel blessed that you are considering us as parents for your baby. ## About Us

We are best friends and have a strong sense of shared values, such as family, faith, and love. Our time together is cherished; full of laughter and love! We enjoy doing everything together including playing tennis, cooking, and visiting with friends and family.

We are very fortunate to live in beautiful, sunny California. The climate is ideal and the landscape is spectacular. California's many beaches, mountains and state parks suits our active lifestyle perfectly. We plan to introduce our child to a wide range of outdoor activities and sports, including hiking, tennis and camping, not only as form of entertainment, but also as a source of healthy exercise. We also want to provide fun and education for our child with many outings to amusement parks, zoos, and other tourist attractions.

Our vacations are spent traveling, which is an important part of our lives. We always travel together, learning about the culture and customs of the places we visit. We see this as a unique educational opportunity for our child, who will have a chance to explore the world.

Our whole family gathers annually in California. We get to enjoy the beach environment as we share our reunion. We also own lake property in Texas and visit there once a year. . These trips also provide an opportunity to visit with Bob's family, who live close by.

## ***Our Home & Pets***

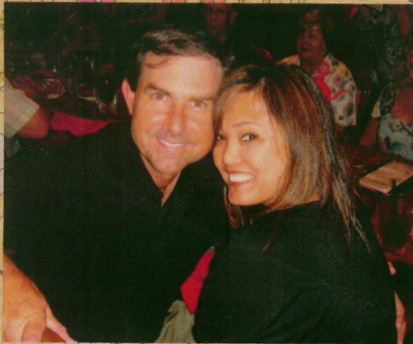

We live in Southern California and are just minutes away from the beach. Our house is very much a "home" and ready for a baby. We live in a four bedroom home with a great backyard and plenty of room for kids to play. Our neighborhood is well known for its safe environment, excellent schools, community parks, churches, and hiking trails.

We have two pets, Beau the Beagle and Lucy the kitty. They are both affectionate and playful and love people, especially kids. Just ask our nieces and nephews!

# Our Families

Sara's brother and sister-in-law

Bob was raised in Texas and still loves to return to his hometown and visit friends. His parents are still happily married after fifty-five years. They now live in Oklahoma where his dad is a "Gentleman Rancher, owning 320 acres of land filled with horses and cows. His mom is one of the sweetest women alive! Their home is the perfect place to visit grandparents and we are eager to create memories there with our child. Bob also has one sister, who is a teacher, and is important source of guidance, in his life.

Bob's Parents

Sara grew up in Southern California with two older siblings, a brother and sister. Her parents have been married almost fifty years and still live in the house that Sara grew up in. Sara's father is a professional musician and eagerly shares the value of learning how to play an instrument. Her mother is the ideal grandmother, with a vivacious and magnetic personality.

Grandparents, aunts, uncles, and cousins ... Every one of them is excited to embrace your baby as a part of our family.
