

# Adam & Shelli

## From Texas

### *Dear Birth Mother,*

We look forward to getting to know you and your hopes for your child. We are open to whatever future contact you are comfortable with. We both work in nursing and enjoy our jobs. We are a devoted, financially stable, college educated couple with a lot of love to give to our first child.

### *About Us*

We met while we were deployed to Texas as nurse anesthetists in the Army Reserves. We immediately became friends and have been inseparable ever since. We have been in the Army Reserves 16 years and we look forward to retiring with Army benefits in four years!

People describe us as outdoor-loving, sincere, honest, fun, and great with kids. Together we enjoy doing Cross Fit and running. We love being outdoors, especially in or on the water. We also enjoy spending quiet nights at home watching TV. We make it a point to eat supper at the table every night. We both sing in the car and at church, even though neither of us is really all that good.

### *My wife, Shelli*

Shelli is the yin to my yang. I am real laid back and she kind of gets excited about stuff, and somehow it works together perfectly. We make decisions together very easily. I love hanging out with her and she always pushes me to be a better person.

She loves her job taking care of children in the operating room. She loves taking pictures and putting them into photo albums, and organizing our home.

### *My husband, Adam*

Adam has a huge heart and will do anything for friends and family. He is laid back, sincere, and genuine. He is very loving and is always there for me. He shows me things in a new perspective on a regular basis.

Adam also enjoys yard work, hunting, working on small projects around the house, grilling and spending time with friends and family. I am lucky to be Adam's wife!

### *Our Home in Texas*

We live in a two-story, four bedroom house with both a game room and a media room. Our home is on a full acre on a quiet street near Dallas. Our neighborhood is near parks, water parks, amusement parks, zoos, aquarium, and lakes. The nursery is near our master bedroom although the baby will stay with us in our room at first.

### *Our Promise*

As much as we'd love to tell you everything about us and our dreams of raising a family, what stands out the most in our hearts is our promise to love and accept your child unconditionally, and to offer a great home with laughter and an opportunity to seek higher education. You are important to us too and we welcome the chance to know you and stay in touch as you are comfortable.

Family is so precious to us. We want to adopt again in the future, so your child will have siblings to grow up with as well.

*Thank you for learning about us. We wish you and your baby the best!*
